

PUBLIC NOTICE

PUBLIC HEARING FOR DRAFT HAZARDOUS WASTE RENEWAL PERMIT FOR CLEAN HARBORS REIDSVILLE, LLC NCD000648451

This is to notify the public of the issuance by the North Carolina Division of Waste Management's Hazardous Waste Section of a draft renewal permit for Clean Harbors Reidsville, LLC located at 208 Watlington Industrial Drive in Reidsville North Carolina.

A public hearing will be held August 22, 2017 at 11:00 am in the Council Chambers of the Reidsville City Hall, located at 230 W. Morehead Street in Reidsville, North Carolina. All attendees will have the opportunity to present five (5) minute oral statements regarding the draft renewal permit and/or to submit written comments and data.

In conjunction with the issuance of the draft renewal permit, written comments may also be sent during the public comment period of July 23, 2017 – September 6, 2017 to the following address:

Julie Woosley, Hazardous Waste Section Chief
NC Division of Waste Management
NCDEQ
MSC 1646
Raleigh, NC 27699-1646

All data submitted by the applicant is part of the administrative record and available for your review Monday through Friday during office hours (9:00 a.m. to 4:00 p.m.). Copies of the renewal permit application, the draft renewal permit, and a fact sheet are available at the Hazardous Waste Section located at 217 West Jones Street in Raleigh, North Carolina. Call (919) 707-8270 for an appointment before arriving. The draft permit can also be found online at the following location: <https://deq.nc.gov/news/events/public-notice-hearings>. Files are also accessible through the document management system at: <https://deq.nc.gov/about/divisions/waste-management/waste-management-rules-data/e-documents>. To locate relevant files, enter “*000648451” into the search field.

Clean Harbors is a commercial hazardous waste storage and treatment facility which accepts RCRA listed and characteristic wastes from various industrial, institutional and government clients located both in and out of state. Wastes are received at the site and ultimately shipped to appropriate approved disposal facilities after bulking, treating, or consolidating into truckload quantities. Minor treatment activities include small container shredding, solidification, and labpack deactivation. Current facility container storage capacity is 608,902 gallons in six existing buildings. The renewal permit regulates hazardous waste container management in these six buildings and includes additional container and tank units in four proposed buildings.

All comments received during the public comment period or at the hearing will be considered in the decision regarding this renewal permit. Comments received after the public comment period ends will not be considered. The statutory authority for calling the permit hearing is G.S. 130A-294(f). Applicable State rules are found in the North Carolina Hazardous Waste Management Rules 15A NCAC 13A .0105, .0109, and .0113. These rules adopt the requirements of the Federal Resource Conservation and Recovery Act as amended by the Hazardous and Solid Waste Amendments of 1984.

Anyone desiring additional information may contact Carl Utterback at (919) 707-8212 or carl.utterback@ncdenr.gov or at the address listed above.
